DESCRIPTORS- *JUNIOR COLLEGES, *ADMISSION (SCHOOL), *ADMISSION CRITERIA, COLLEGE ADMISSION, STUDENT APPLICATION, COLLEGE ENTRANCE EXAMINATIONS, *STATE PROGRAMS, *STUDENT CHARACTERISTICS, CEEB SCHOLASTIC APTITUDE TEST, RICHMOND

IN ORDER TO COMPLY WITH LEGISLATIVE ACTION, THIS STUDY HAS BEEN PREPARED AS THE FIRST PART OF A PROPOSED TWO-PART SERIES DESCRIBING THE CHARACTERISTICS OF COLLEGE FRESHMEN IN VIRGINIA'S PUBLIC INSTITUTIONS OF HIGHER EDUCATION. ADMISSION APPLICATIONS FOR FALL, 1966, WERE RECEIVED FROM 30,996 FRESHMEN. SEVENTY PERCENT OF THE VIRGINIA APPLICANTS WERE IN THE UPPER HALF OF THEIR CLASS, AND 83 PERCENT WERE ACCEPTED. ALTHOUGH OUT-OF-STATE APPLICANTS RANKED HIGHER THAN VIRGINIA APPLICANTS IN CLASS STATUS AND COLLEGE BOARD SCORES, ONLY 43 PERCENT WERE ACCEPTED. TABLES INCLUDE DATA ON IN-STATE AND OUT-OF-STATE APPLICANTS, THE DISTRIBUTION OF 2-YEAR AND 4-YEAR APPLICATIONS AND MULTIPLE APPLICATIONS, CLASS RANK OF APPLICANTS, AND SAT VERBAL AND MATH SCORES OF APPLICANTS. IN ADDITION, THE ADMISSIONS POLICIES, PROCEDURES, AND MINIMUM REQUIREMENTS OF THE PUBLIC INSTITUTIONS SURVEYED ARE SUMMARIZED. (AL)

HOUSE JOINT RESOLUTION NO. 97

Agreed to by the House of Delegates, March 4, 1966

Agreed to by the Senate, March 10, 1966

Whereas, unprecedented numbers of students are seeking admission to institutions of higher education in Virginia; and

Whereas, the Commonwealth of Virginia is striving to provide a system of higher education which will accommodate all qualified Virginia youths seeking admission; and

Whereas, the planning and development of an adequate State system of higher education require accurate information concerning the number and qualifications of applicants for admission, applicants accepted, and applicants who enroll; now, therefore, be it

Resolved by the House of Delegates, the Senate concurring, That the State Council of Higher Education is directed to determine for the fall semesters of the 1966-67 and 1967-68 school years, the total number of individuals applying for admission to each State-controlled institution of higher education, the number and qualifications of those accepted for admission by each institution, and the number and qualifications of those accepted for admission who actually enroll. In addition to such other information the Council may collect on this subject, it shall determine and report on the following:

(1) Institutional admissions policies, procedures, criteria, filing and notification dates, minimum requirements for admission and such special provisions which may exist for early admissions, advanced placement and the like.

(2) The residence, sex, age, grade average and class rank, college entrance examination scores, institutional decision on each applicant, and identification of those who enroll.

(3) Information pertaining to existing minimum requirements for admission, with particular reference to the weight given by each institution to academic achievement and to the results achieved on standardized tests of applicants for admission, and data showing the correlation between achievement by students accepted for admission and their relative standings on any standardized tests used as a part of the admission requirements.

(4) The number and types of multiple applications and multiple acceptances among the several institutions.

In its reports to the Governor and the General Assembly, the Council shall not identify any applicant by name.

The Council shall seek the advice of the State-controlled institutions of higher education and of other appropriate institutions or agencies as may be helpful in the study; all agencies of the State, educational and otherwise, shall cooperate with the Council in its work and the Council shall submit its reports to the Governor and the members of the General Assembly not later than December fifteen, nineteen hundred sixty-six and nineteen hundred sixty-seven, respectively.

COMMONWEALTH OF VIRGINIA
State Council of Higher Education
Tenth Floor, Life Insurance Company of Virginia Building
914 Capitol Street, Richmond 23219

December 15, 1966

To:

The Honorable Mills E. Godwin, Jr., Governor of Virginia

And

Members of the General Assembly, Commonwealth of Virginia

House Joint Resolution No. 97, approved by the 1966 General Assembly, directed the State Council of Higher Education to study and report on matters relevant to the admission of students to institutions of higher education in Virginia for the Fall semesters of 1966 and 1967.

The State Council of Higher Education has the honor and pleasure to submit to you herewith Part I of its report on student admissions to the state-controlled institutions of higher education for the Fall term 1966. In accordance with the instructions of House Joint Resolution No. 97, the Council collected information on the number and qualifications of all students who completed applications for freshman admission to each of the state-controlled institutions of higher education for the Fall term 1966. As directed, it also assembled information on the number and types of multiple applications and multiple acceptances among the several institutions. This report presents this information about the 1966 applicant population, as well as information about current institutional admissions policies, procedures, and minimum requirements. A report on the freshman year performance of 1966 enrollees in state-controlled institutions will be presented next year as Part II of this study.

The State Council of Higher Education wishes to take this opportunity to record its appreciation to the state institutions of higher education whose cooperation and assistance made this study possible. The Council is particularly indebted to its Admissions and Enrollment Advisory Committee, composed of representatives from each of the four-year institutions and from the State Department of Community Colleges, whose advice and suggestions were of great help with all aspects of the study.

The supervision of the study and the preparation of this report have been the special responsibility of Dr. Robert R. Ramsey, Jr., Assistant Director, Mr. Andrew G. Bean, Research Analyst, and Miss Dale Ford, Research Assistant, of the State Council staff.

Respectfully submitted,

Prince B. Woodard, Director

HIGHLIGHTS OF THE STUDENT ADMISSIONS STUDY, FALL 1966

Summary highlights for individual sections of this report will be found on Pages 3, 9, 17, 25, and 33. The highlights presented here are singled out because of their general interest and significance.

- For the Fall term, 1966 the state-controlled institutions of higher education received completed applications for freshman undergraduate admission from 30,996 students.

- Sixteen per cent of the students who applied for admission in the Fall, 1966 submitted applications to more than one state-controlled institution. This resulted in 37,031 applications being filed by the 30,996 students.

- Over two-thirds of all students applying were accepted by at least one state-controlled institution.

- Seventy-one per cent of the 1966 applicants who were accepted subsequently enrolled in one of the state-controlled institutions, and an analysis of their freshman year performance will be presented next year as Part II of this study.

- State-controlled institutions accepted Virginia students at a substantially higher rate than out-of-state students. Eighty-three per cent of the Virginia applicants were accepted, while only 43 per cent of the out-of-state applicants were accepted.

- On the average, out-of-state students who applied for admission to state-controlled institutions in the Fall, 1966 had higher secondary school class ranks and College Board scores than Virginia applicants.

- Seventy per cent of the Virginia applicants were in the upper half of their class, and of these 89 per cent were accepted by at least one state-controlled institution.

- Seventy-nine per cent of the Virginia students who applied to four-year state-controlled institutions were accepted; 91 per cent of the Virginia students who applied to two-year state-controlled institutions were accepted.

I. CHARACTERISTICS OF THE APPLICANTS TO STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION, FALL 1966

For the Fall term 1966 the thirteen four-year and twelve two-year state-controlled institutions of higher education in Virginia received completed applications for freshman undergraduate admission from 30,996 students. (5,022 of these students submitted applications to two or more state-controlled institutions, bringing the total number of applications submitted to 37,031.)

For the purposes of this study the institutions reported to the State Council of Higher Education the following information for each applicant: sex, residence, secondary school class rank, College Board Scholastic Aptitude Test (SAT) scores, institutional admissions decision, and student enrollment decision. However, the statements of institutional admissions policies appearing later in this report make it clear that other factors such as character, emotional stability, and motivation are also important considerations in institutional admissions decisions. The over-all 1966 applicant picture may be summarized as follows:

	Total Applicants	Applicants Accepted	Per Cent Applicants Accepted	Applicants Enrolled	Per Cent Enrolled of Accepted
Male	17,483	12,231	70	8,698	71
Female	13,513	8,988	67	6,456	72
TOTAL	30,996	21,219	68	15,154	71

The distribution of applicants by residence showed the following pattern:

		Total Applicants	Applicants Accepted	Per Cent Applicants Accepted	Applicants Enrolled	Per Cent Enrolled of Accepted
IN-STATE:	Male	10,779	9,060	84	6,971	77
	Female	8,904	7,266	82	5,490	76
	TOTAL	19,683	16,326	83	12,461	76
OUT-OF-STATE:	Male	6,704	3,171	47	1,727	54
	Female	4,609	1,722	37	966	56
	TOTAL	11,313	4,893	43	2,693	55

Tables 1-4 report the number and types of admissions decisions for each state-controlled institution, distributed by sex and residence. A summary of 1966 applicants to four and two-year institutions follows:

		Total Applicants	Applicants Accepted	Per Cent Applicants Accepted	Applicants Enrolled	Per Cent Enrolled of Accepted
Four-Year Institutions*						
IN-STATE:	Male	8,005	6,342	79	4,684	74

* 749 students applied to both four and two-year institutions.

HIGHLIGHTS OF THE 1966 APPLICANT PICTURE AT STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION, FALL 1966

68 per cent of the 1966 applicants were accepted by one or more state-controlled institutions.

71 per cent of the 1966 applicants who were accepted subsequently enrolled in one of the state-controlled institutions.

64 per cent of the 1966 applicants were Virginia students, of whom 83 per cent were accepted.

36 per cent of the 1966 applicants were out-of-state students, of whom 43 per cent were accepted.

56 per cent of the 1966 applicants were males, of whom 70 per cent were accepted.

44 per cent of the 1966 applicants were females, of whom 67 per cent were accepted.

87 per cent of the students applied to four-year institutions and 64 per cent were accepted.

16 per cent of the students applied to two-year institutions and 90 per cent were accepted (3 per cent of the students applied to both two and four-year institutions).

59 per cent of the applicants to four-year institutions were Virginia students, of whom 79 per cent were accepted.

41 per cent of the applicants to four-year institutions were out-of-state students, of whom 42 per cent were accepted.

93 per cent of the applicants to two-year institutions were Virginia students, of whom 91 per cent were accepted.

7 per cent of the applicants to two-year institutions were out-of-state students, of whom 80 per cent were accepted.

Tables 5-10 report secondary school class ranks by deciles for 1966 applicants to all state-controlled institutions, to four-year institutions, and to two-year institutions. Tables 29-53 in the Appendix report secondary school class ranks by deciles for 1966 applicants to each state-controlled institution. Deciles correspond to tenths of a class. Students ranking in the first decile stand in the top tenth of their class and students ranking in the tenth decile stand in the bottom tenth of their class.

HIGHLIGHTS OF THE SECONDARY SCHOOL CLASS RANK DECILES OF APPLICANTS TO STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION, FALL 1966*

70 per cent of Virginia applicants were in the upper half of their class (Deciles 1-5), of whom 89 per cent were accepted.

81 per cent of out-of-state applicants were in the upper half of their class, of whom 47 per cent were accepted.

30 per cent of Virginia applicants were in the lower half of their class (Deciles 6-10), of whom 70 per cent were accepted.

19 per cent of out-of-state applicants were in the lower half of their class, of whom 29 per cent were accepted.

91 per cent of male Virginia applicants in the upper half of their class were accepted.

87 per cent of female Virginia applicants in the upper half of their class were accepted.

74 per cent of male Virginia applicants in the lower half of their class were accepted.

61 per cent of female Virginia applicants in the lower half of their class were accepted.

86 per cent of Virginia applicants to four-year institutions who ranked in the upper half of their class were accepted.

47 per cent of out-of-state applicants to four-year institutions who ranked in the upper half of their class were accepted.

58 per cent of Virginia applicants to four-year institutions who ranked in the lower half of their class were accepted.

26 per cent of out-of-state applicants to four-year institutions who ranked in the lower half of their class were accepted.

88 per cent of male Virginia applicants to four-year institutions who ranked in the upper half of their class were accepted.

85 per cent of female Virginia applicants to four-year institutions who ranked in the upper half of their class were accepted.

61 per cent of male Virginia applicants to four-year institutions who ranked in the lower half of their class were accepted.

51 per cent of female Virginia applicants to four-year institutions who ranked in the lower half of their class were accepted.

97 per cent of Virginia applicants to two-year institutions who ranked in the upper half of their class were accepted.

86 per cent of Virginia applicants to two-year institutions who ranked in the lower half of their class were accepted.

* Percentages reported in these highlights are based only on those applicants for whom class rank decile information was available.

Tables 11-16 report distributions and means of Scholastic Aptitude Test-Verbal (SAT-Verbal) scores for 1966 applicants to all state-controlled institutions, to four-year institutions, and to two-year institutions, by sex and residence. Tables 54-78 in the Appendix report distributions of Scholastic Aptitude Test-Verbal (SAT-Verbal) scores for 1966 applicants to each institution by sex and residence. The mean score is the arithmetical average for a particular group of scores, and SAT-Verbal scores are reported on a scale ranging from 200 to 800.

HIGHLIGHTS OF THE SAT-VERBAL SCORES OF APPLICANTS TO STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION, FALL 1966*

47 per cent of 1966 applicants had SAT-Verbal scores 500 and above.
The mean SAT-Verbal score of 1966 applicants was 488.

46 per cent of 1966 applicants accepted had SAT-Verbal scores 500 and above.
The mean SAT-Verbal score of 1966 applicants accepted was 488.

36 per cent of Virginia applicants had SAT-Verbal scores of 500 and above.
The mean SAT-Verbal score of Virginia applicants was 462.

64 per cent of out-of-state applicants had SAT-Verbal scores 500 and above.
The mean SAT-Verbal score of out-of-state applicants was 530.

39 per cent of Virginia applicants accepted had SAT-Verbal scores 500 and above.
The mean SAT-Verbal score of Virginia applicants accepted was 469.

70 per cent of out-of-state applicants accepted had SAT-Verbal scores 500 and above.
The mean SAT-Verbal score of out-of-state applicants accepted was 547.

39 per cent of Virginia applicants to four-year institutions had SAT-Verbal scores of 500 and above, of whom 87 per cent were accepted.
The mean SAT-Verbal score of Virginia applicants to four-year institutions was 468; the mean SAT-Verbal score of Virginia applicants accepted to four-year institutions was 479.

23 per cent of Virginia applicants to two-year institutions had SAT-Verbal scores 500 and above, of whom 92 per cent were accepted.
The mean SAT-Verbal score of Virginia applicants to two-year institutions was 429; the mean SAT-Verbal score of applicants accepted to two-year institutions was 432.

* Percentages reported in these highlights are based only on those applicants for whom SAT-Verbal scores were available.

Tables 17-22 report distributions and means of Scholastic Aptitude Test-Mathematical (SAT-Mathematical) scores for 1966 applicants to all state-controlled institutions, to four-year institutions, and to two-year institutions, by sex and residence. Tables 79-103 in the Appendix report distributions of Scholastic Aptitude Test-Mathematical (SAT-Mathematical) scores for 1966 applicants to each institution by sex and residence. The mean score is the arithmetical average for a particular group of scores, and SAT-Mathematical scores are reported on a scale ranging from 200 to 800.

HIGHLIGHTS OF THE SAT-MATHEMATICAL SCORES OF APPLICANTS TO STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION, FALL 1966*

57 per cent of 1966 applicants had SAT-Mathematical scores 500 and above.
The mean SAT-Mathematical score of 1966 applicants was 514.

57 per cent of 1966 applicants accepted had SAT-Mathematical scores 500 and above.
The mean SAT-Mathematical score of 1966 applicants accepted was 518.

48 per cent of Virginia applicants had SAT-Mathematical scores 500 and above.
The mean SAT-Mathematical score of Virginia applicants was 490.

71 per cent of out-of-state applicants had SAT-Mathematical scores 500 and above.
The mean SAT-Mathematical score of out-of-state applicants was 552.

51 per cent of Virginia applicants accepted had SAT-Mathematical scores 500 and above.
The mean SAT-Mathematical score of Virginia applicants accepted was 499.

76 per cent of out-of-state applicants accepted had SAT-Mathematical scores 500 and above.
The mean SAT-Mathematical score of out-of-state applicants accepted was 577.

51 per cent of Virginia applicants to four-year institutions had SAT-Mathematical scores 500 and above, of whom 86 per cent were accepted.
The mean SAT-Mathematical score of Virginia applicants to four-year institutions was 496; the mean SAT-Mathematical score of applicants accepted to four-year institutions was 507.

35 per cent of Virginia applicants to two-year institutions had SAT-Mathematical scores 500 and above, of whom 93 per cent were accepted.
The mean SAT-Mathematical score of Virginia applicants to two-year institutions was 463; the mean SAT-Mathematical score of applicants accepted to two-year institutions was 466.

*Percentages reported in these highlights are based only on those applicants for whom SAT-Mathematical scores were available.

II. MULTIPLE APPLICATIONS AND MULTIPLE ACCEPTANCES AMONG STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION, FALL 1966

House Joint Resolution No. 97 directed the State Council of Higher Education to collect information about "the number and types of multiple applications and multiple acceptances among the several institutions." Multiple applications occur when the same student submits applications to two or more institutions. Multiple acceptances result when two or more institutions accept his application.

The nature and scope of this study did not include the 1966 applicant populations of Virginia's privately controlled institutions of higher education or of institutions of higher education outside of Virginia. With some students today it is common to apply to different types of institutions, and consequently the present information about applications to state-controlled institutions does not provide an all-inclusive picture of the 1966 multiple application situation as it existed for the students in this study.

HIGHLIGHTS OF THE MULTIPLE APPLICATIONS AND MULTIPLE ACCEPTANCES AMONG STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION, FALL 1966

84 per cent of 1966 applicants submitted applications to one state-controlled institution only.

16 per cent of 1966 applicants submitted applications to two or more state-controlled institutions.

65 per cent of 1966 applicants who applied to one state-controlled institution only were accepted.

87 per cent of 1966 applicants who applied to two or more state-controlled institutions were accepted by at least one institution.

47 per cent of the applicants who applied to two or more institutions were male.

53 per cent of the applicants who applied to two or more institutions were female.

The average number of applications submitted by Virginia students was 1.3.

The average number of applications submitted by out-of-state students was 1.1.

The thirteen four-year and twelve two-year state-controlled institutions of higher education in Virginia received 37,031 completed applications for freshman undergraduate admission to the Fall term 1966. These applications were submitted by 30,996 students, with 5,022 of this number (16.2 per cent) submitting applications to two or more state-controlled institutions. Analysis of the information for 1966 applicants yielded the following picture of the nature and extent of multiple applications to state-controlled institutions:

	Male	Female	Total Students	Per Cent of Total Students	Total Applications
Students Who Applied To:					
1 State-Controlled Institution	15,132	10,842	25,974	83.8	25,974
2 State-Controlled Institutions	2,040	2,087	4,127	13.3	8,254
3 State-Controlled Institutions	290	498	788	2.6	2,364
4 State-Controlled Institutions	20	76	96	0.3	384
5 State-Controlled Institutions	1	10	11	0.0	55
TOTAL Students	17,483	13,513	30,996	100.0	
TOTAL Applications					37,031

AVERAGE Number of Applications To State-Controlled Institutions By:	IN-STATE	Male	1.2
		Female	1.3
		Total	1.3
	OUT-OF-STATE	Male	1.1
		Female	1.1
		Total	1.1

Institutional admissions decisions on applications produced the following pattern of multiple acceptances:

	Distribution of Students According to Number of Acceptances						
	No Acceptances	1 Acceptance	2 Acceptances	3 Acceptances	4 Acceptances	5 Acceptances	Total Students
Students Who Applied To:							
1 State-Controlled Institution	9,110	16,864	-	-	-	-	25,974
2 State-Controlled Institutions	618	1,785	1,724	-	-	-	4,127
3 State-Controlled Institutions	42	244	323	179	-	-	788
4 State-Controlled Institutions	6	22	36	25	7	-	96
5 State-Controlled Institutions	1	2	4	2	2	0	11
TOTAL Students	9,777	18,917	2,087	206	9	0	30,996

Table 23 reports the extent to which 1966 applicants to specific state-controlled institutions also submitted applications to other state-controlled institutions. The percentage figures for each institution indicate the proportion of its total 1966 applications that overlapped with applications from the same student to 1, 2, 3, or 4 other state-controlled institutions. The per cent of applications to "No Other" institutions indicates the proportion of applications submitted only to the specific institution and not duplicated by applications to other state-controlled institutions.

Table 24 reports the extent to which acceptances by specific state-controlled institutions coincided with acceptances by other state institutions receiving applications from the same student. The percentage figures indicate the proportion of the particular institution's acceptances that overlapped with acceptances of the same student by No, 1, 2, or 3 other state institutions.

Table 23-MULTIPLE APPLICATIONS TO STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION IN VIRGINIA, FALL 1966

III. ADMISSIONS POLICIES, PROCEDURES, AND MINIMUM REQUIREMENTS OF STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION, FALL 1966

In accordance with the instructions of House Joint Resolution No. 97, each of the state-controlled institutions of higher education submitted to the State Council of Higher Education information about its current admissions policies, procedures, and minimum requirements. Statements of institutional admissions policy are reported as submitted to the State Council. Information about admissions procedures is presented in Tables 25 and 26. The minimum requirements for admission as stated in Tables 27 and 28 constitute the minimum qualifications that ordinarily must be presented for an individual applicant to be considered by the particular institution. Recent experience in many of the four-year institutions indicates, however, that the number of applicants who satisfy the minimum requirements has typically exceeded the number of students who could be accommodated in these institutions. Consequently, possession of the minimum qualifications stated in Tables 27 and 28 cannot guarantee admission to one or more of the state-controlled institutions of higher education.

ADMISSIONS POLICY STATEMENTS OF FOUR-YEAR INSTITUTIONS, FALL 1966

Longwood College

Admission to Longwood College is on a selective basis. Priority is given to the best qualified applicants. A student must rank in the upper half of her class and must have made scores on the Scholastic Aptitude Test of the CEEB and other tests reported by the high school to indicate satisfactory achievement and the ability to profit from the program offered at Longwood. The applicant must have the recommendation of her high school principal or guidance counselor. This recommendation must include information on health, emotional stability, character, and academic promise. In selecting students for admission, Longwood College gives consideration to the program completed in high school and to participation in accelerated courses.

Madison College

The general requirement for admission to Madison College is graduation in the upper half of the class from an accredited secondary school or its equivalent as shown by examination. Candidates for admission from secondary schools requiring more than the normal four (4) years for graduation may be considered for acceptance when their transcripts show the full equivalent of graduation from a four-year secondary school and rank in the upper half of the class. Preference will be given to applicants who display a well-planned high school program. The high school record, the class rank, the test scores, the recommendation of the principal and other sources of information which may be available will be used in determining the applicant's fitness for admission. Preference is given to Virginia applicants.

All freshman applicants must submit the results of the Scholastic Aptitude Test given by the College Entrance Examination Board. In addition to academic promise, consideration is given to character, interests, attitudes, leadership and personality. Each applicant must submit a satisfactory health certificate from a physician.

Mary Washington College

The Committee on Admissions considers many factors in evaluating applications. Among the most important are scholastic achievement, class rank, aptitude and achievement test results, the recommendation of a principal or guidance officer, and evidence in the pattern of courses chosen for secondary school study of an adequate background for liberal learning. Experience has made it clear that no one of these factors singly should be decisive, but that students who have not measured up to the general level of academic competence already achieved by their classmates will not be successful in competing with them at Mary Washington. The Committee selects for admission those applicants it believes are capable of proceeding to graduation.

Medical College of Virginia (Nursing)

In selecting students, the Admissions Committee looks for evidence of character, ability, maturity and sound academic preparation. Decisions are made after careful study of all the information available on each candidate, including secondary school record, recommendations, College Entrance Examination Board tests and the results of a personal interview. Applicants must be graduates of an accredited secondary school or its equivalent with sixteen units of credit, twelve of which must be academic units.

To the extent of the present capacity of our dormitory and teaching facilities, the school of nursing has been able to admit all Virginia students meeting its admission requirements.

Old Dominion College

In coming to college as a freshman one may be admitted as a student directly from high school if he has a recommendation from the secondary school from which he graduated, a certificate of graduation with sixteen units from an accredited secondary school and satisfactory scores on the Scholastic Aptitude Test given by the College Entrance Examination Board. Twelve of the sixteen units must be in academic

Old Dominion College (Continued)

subjects (English, Social Studies, Advanced Mathematics, Laboratory Science and Foreign Languages); however, foreign language is not a specific requirement for admission. Scores on the Scholastic Aptitude Test should indicate satisfactory achievement and the ability to profit from the collegiate program. Preference is given to the student who graduates in the upper half of his high school class with an academic average of "C" or better and with a record displaying a well-planned high school program with continuous courses in the same field of study. Extracurricular activities, honors and recognitions received, offices held, and social organization membership plus high school principal and counselor recommendations and comments are given appropriate consideration.

Early consideration will be given to outstanding high school students at the completion of their Junior year provided their College Entrance Examination Board scores are of correspondingly higher quality.

Applicants for regular undergraduate admission who do not fully meet the requirements for such admission, or applicants planning to register for less than a full class load of twelve semester hours who are graduates of accredited secondary schools may be admitted on a part-time basis. Students who elect to attend the Evening College or Summer College must be graduates of an accredited secondary school or the equivalent thereof. These students will normally be limited to eleven semester hours. Transfer students are accepted at Old Dominion College provided their previous academic records are satisfactory and meet necessary standards.

A statement of financial responsibility for the applicant by parent or guardian must be executed and forwarded with application.

A physical examination, by physician of applicants' choice, is required.

A personal interview is not required although applicants are encouraged to visit the college.

Radford College

The number of resident freshman students admitted to Radford College each year is limited by the available space in the dormitories. It is the policy of the college to admit as many as possible of those students whose ability, preparation, and character offer good prospects for success in the program of study offered at Radford.

High school grades; rank in the high school graduating class; principal's recommendation; scores on the Scholastic Aptitude Test, given by the College Entrance Examination Board; and the student's health are factors considered by Radford College before the student is admitted.

Richmond Professional Institute

Consistent with the wide choice of programs for study, the admission requirements vary somewhat depending upon the particular program which the student selects. However, the general considerations for admission are: (1) evidence of good scholarship; (2) personality characteristics which indicate ability to succeed in an academic environment; and (3) performance on the Scholastic Aptitude Test of the College Entrance Examination Board.

Since the number of applicants who meet the essential requirements for admission may exceed the number that can be admitted, the Office of Admissions selects those who (A) present the strongest qualifications in scholarship, character, personality, performance in extracurricular activities, and breadth of interests, and who (B) present evidence of aptitude for the profession or occupation for which the applicant wishes training.

Except for Arts and Sciences, Business, Commercial Art, Engineering, English Education, Nursing, Occupational Therapy, and Science, applicants for admission are not required to have completed a specified list of subjects in high school, the planning of high school work of such applicants being left to the high school principal and faculty,

Richmond Professional Institute (Continued)

and the major factor in admission being the possession of genuine interest in and a real aptitude for the specialized subjects to be taken at the Richmond Professional Institute.

University of Virginia

The University Committee on Undergraduate Admissions considers each applicant individually, using as its principles of selection the following: 1. Evidence of good character and acceptable social habits. 2. Evidence of academic achievement and promise, especially facility in the use of the English language and the understanding of fundamental mathematical processes. In the order of their importance, the specific criteria of selection are as follows: Secondary school record (including subjects studied, grades, rank in class), secondary school's recommendation, College Board test scores, extracurricular activities and interests, personal interview (not required). Of all criteria, those of good character and of academic achievement and promise are paramount.

An applicant for admission to any of the University's undergraduate schools at Charlottesville must:

1. Graduate from an accredited secondary school with a standing in his class satisfactory to the Committee on Admissions.

2. Have the recommendation of his secondary school for good character and for academic achievement and promise.

3. Take the Scholastic Aptitude Test and three Achievement Tests of the College Board. (The specific Achievement Tests required by each School are indicated in the application instructions and the appropriate catalogues.)

4. Meet the course and credit requirements of the University School to which he is applying.

Virginia Military Institute

VMI accepts all qualified Virginia applicants, out-of-state applicants being assigned remaining spaces on a competitive basis.

Academic qualification is determined largely by secondary school grades, class rank, standardized test scores (College Board SAT and two AT are required), and the principal's recommendation.

Personality and character evaluations by school officials and extra-curricular achievements are the principal bases for extablishing personality and character qualifications. Interviews and two letters of recommendation are suggested but are not required excepi in special cases.

Since ROTC enrollment is compulsory for all cadets, physical qualifications are those set by AR 40-501 for admission into the ROTC.

Applicants must be unmarried males 16 to 22 years of age inclusive.

Virginia Polytechnic Institute

(Including Clifton Forge-Covington Community College, Danville Division, and Wytheville Community College)

Admission to Virginia Polytechnic Institute is based primarily on academic achievement, character and aptitude for college level education. Special consideration is given to Virginia applicants who show evidence of ability, good character, proper academic preparation, willingness to study, and a desire for a college education. Qualified out-of-state students are accepted up to twenty per cent of total enrollment.

Virginia Polytechnic Institute (Continued)

The high school record, rank in class, College Board Scholastic Aptitude Test and the high school's recommendation of high moral character and motivation are the primary admissions criteria. The high school record including specific courses taken and grades received in subjects consistent with the demands in the applicant's field of study is the single most important criterion.

Virginia State College-Norfolk

In its admission policy, the College recognizes, on the one hand, the necessity of prior consideration to Virginia applicants of ability; and, at the same time, the need to meet the desires of the out-of-state alumni to have their relatives and others to whom they are interested attend their Alma Mater. There are also some Virginians who desire to have their out-of-state relatives attend here. The present policy that out-of-state students are not to exceed twenty-five per cent is reaffirmed.

General considerations for admission are as follows:

1. Applicants who have averages of at least "C" and have submitted the results of the Scholastic Aptitude Test of the College Entrance Examination Boc-d may be admitted to the Division at Norfolk of Virginia State College, provided they qualify under the "academic preparation "requirements as outlined in the Annual Catalogue.

2. If the maximum enrollment has not been reached by the admission of applicants in the above category, then any Virginian who is a high school graduate and who is judged capable of performing acceptably at college level may be admitted.

Virginia State College-Petersburg

The primary requirement for Freshman Class admission consideration to Virginia State College, Petersburg, is graduation from an accredited high school with a minimum of sixteen units (twelve of sixteen units must be in academic subjects) or the equivalent as shown by examination. The applicant should be in the upper half of his graduating class. The number of academic units required varies with the different schools of the college.

The completion of a four-year course in an accredited public or private high school is the first requisite. For the best preparation, the College recommends the following distribution of high school credits: (grade 9-12) English, 4 years; Mathematics (including elementary algebra and plane geomentry), 2 years; a foreign language, 2 years (no less than 2 years in a given foreign language will be accepted); history (including U.S. History) and Social Studies, 2 years; a laboratory science, 2 years; selected electives, 4 years.

The College seeks to select for admission applicants who show promise of becoming competent scholars and responsible citizens. The promise is measured in terms of character as demonstrated by attitudes and habits of conduct; ability and preparation for college study as suggested by the applicant's performance and his program of study in the secondary school; and citizenship as indicated by extracurricular interest and participation. The decision of the Admissions Committee with respect to an applicant's fitness is based upon his secondary school record, the recommendation of his principal, results of the College Entrance Examination Board (SAT) Tests and other test scores which may be available, and information regarding his personality which may be provided by his teachers or other responsible persons.

College of William and Mary

The essential requirement for admission to the College of William and Mary is graduation in the upper half of the class from an accredited secondary school, with a minimum of sixteen units or the equivalent of this requirement as shown by examination.

Since the number of applicants who meet the essential requirement is considerably in excess of the number that can be admitted, the College selects those who present the strongest qualifications in scholarship, character, and breadth of interests.

The high school record, the recommendation of secondary school officials, test scores, and such other sources of information as may be available will be utilized in determining the applicant's fitness for selection.

ADMISSIONS POLICY STATEMENTS OF TWO-YEAR INSTITUTIONS, FALL 1966

State Department of Community Colleges

(Community College in Roanoke and
Northern Virginia Community College)

Any person who has a high school diploma or its equivalent, or is 18 years of age, and in any case is able to benefit from a program offered by the community college may be admitted to the college. After a person has been admitted to the college, he will be asked to meet with one of the college counselors (a) to discuss the applicant's educational interests, (b) to determine what additional tests he may need, and (c) to plan his application for admission to a specific curriculum or program at the college.

In addition to the general requirements above, specific requirements are usually prescribed for each program or curriculum within the college. Among the items generally considered in determining the eligibility of a student for a curriculum or program in the college are the student's educational and occupational interests, high school achievements and grades, test results, recommendations from persons who have known the applicant, previous occupational experiences, and other reasonable standards to insure that the student possesses the potential to meet program requirements. All students who plan to enter one of the associate degree, diploma, or certificate programs will be required to take the ACT test battery of the American College Testing Program as part of the orientation program at the college prior to registration. In addition, all students who plan to transfer to a four-year college or university after completing their program at the community college will be required to submit scores for the College Board Scholastic Aptitude Test (SAT).

Clinch Valley College

The applicant must be a graduate, or the equivalent, of an accredited secondary school with graduation based on no fewer than fifteen entrance units. He must have a standing in his class acceptable to the Admissions Committee. In every case the applicant must have general character recommendations from the school which he last attended.

All candidates for admission are required to take the Scholastic Aptitude Test of the College Entrance Examination Board.

All initial applications must be completed at least one month before registration for the fall term. The College will accept late applications by written petition only from commuting students who have already been accepted by another branch of the University or a college with comparable admissions standards.

Students who are applicants for transfer from another college must be in good standing in order to be considered for admission.

Eastern Shore Branch

In considering an applicant for admission to the two-year college transfer program of the Eastern Shore Branch of the University of Virginia, the branch admissions committee is governed by the following basic principles: (1) Evidence of good character and acceptable social habits, (2) Evidence of academic achievement and promise. Important sources of evidence are as follows: Secondary school record (including subjects studied, grades, rank in class), secondary school recommendation, College Board test scores, extra-curricular activities and personal interview (not required).

For admission to the Eastern Shore Branch an applicant must:

(1) Be at least 16 years of age and graduate from an accredited secondary school with a class standing satisfactory to both the branch admissions committee and the admissions committee of the School of General Studies in Charlottesville.

(2) Present a minimum of 15 units of high school work in the following fields: English, mathematics, social studies, Natural Sciences, Foreign Languages and vocational subjects; 4 units of English and 3 of mathematics are normally required.

Eastern Shore Branch (Continued)

(3) Have the recommendation of the principal or guidance counselor of the secondary school from which graduated.

(4) Furnish evidence of scores received on the Scholastic Aptitude Test of the College Entrance Examination Board.

Slight modifications of the above requirements may be made in consideration of applicants for the general education and terminal programs.

George Mason College

Admission of freshman students to George Mason College is based upon class standing, achievements tests, personal interviews, counselor recommendations. Students are generally selected from the upper 60% of their high school graduating class. The SAT of the CEEB are required. All students reside within commuting distance of the college.

Lynchburg Branch

The Lynchburg Branch College Committee on Admissions considers each applicant on his own merits, looking specifically for evidence of good character, and scholastic achievement and academic promise. The committee considers the following, in order of importance:

1. Scholastic record from secondary school.
2. Recommendation of secondary school principal or director of guidance.
3. Scores on College Entrance Examination Board Scholastic Aptitude Test.
4. Recommendation of character references.
5. Record of extracurricular activities.

Of all criteria, good character and academic achievement and promise are most important.

Patrick Henry College

The Admissions Committee of Patrick Henry College of the University of Virginia considers each applicant individually. A student may be admitted to either regular or conditional status; and applicants from the local area are given priority

All students selected for admission must meet the following criteria: 1. Evidence of good character and acceptable social habits. 2. Evidence of academic achievement and promise. 3. Personal interviews with college officials.

In addition, students selected for regular admission must meet the following criteria:

1. Graduate from an accredited secondary school with a standing in his class satisfactory to the Committee on Admissions.

2. Have the recommendation of his secondary school for good character and for academic achievement and promise.

3. Take the Scholastic Aptitude Test of the College Board and achieve satisfactory scores on both the verbal and mathematical tests. The minimum scores for regualr admissions are determined by the committee.

A student may be admitted to conditional status in the college preparatory program, provided that he is at least 18 years of age, and has acquired or is working toward a secondary school diploma or its equivalent, and gives promise of being able to make satisfactory progress in the course he wishes to pursue.

Christopher Newport College

The essential requirement for admission to Christopher Newport College is graduation in the upper two-thirds of the class from an accredited secondary school, with a minimum of sixteen acceptable units or the equivalent of this requirement as shown by examination.

Each applicant is considered on an individual basis, with the goal of determining whether he is prepared for and can profit from the liberal arts curriculum the College offers. Special summer session work in remedial courses is offered a number of applicants whose qualifications are questionable but deserving of consideration.

All applicants to the freshman class are considered on the basis of high school record, standardized test scores, and the principal's recommendation, in addition to the material furnished by the students in their applications.

Richard Bland College

The essential requirement for admission to the Richard Bland College is graduation from an accredited secondary school, with a minimum of sixteen acceptable units or the equivalent of this requirement as shown by examination. The College selects those candidates who present the strongest qualifications in scholarship, personality, performance in extracurricular activities, and breadth of interests.

The high school record, the recommendation of the principal, and any other such sources of information as may be available will be utilized in determining the applicant's fitness for selection. A personal interview by a representative of the College may be required of the candidate.
